Short-Term Indoor Wall Graphics

Print-Receptive/Chalk-Receptive Black Vinyl High-Tack Removable

Advertisers and architects are using walls for small, medium, and large scale ads and murals. Wall advertising applications have many requirements and present numerous challenges. The adhesives used must be able to bond well to a painted wallboard surface, while offering easy application and removal. Films must be durable enough to withstand tearing and opaque enough to cover any existing wall markings.

End Use Applications: Short-Term Indoor Wall Graphics Menu Boards P-O-P Displays

Product ID #: FLX053044

Product: FLEXcon® WALLdeco™ Chalkboard 6787BK

Benefits:

- Durable, print-receptive / chalk-receptive 4.0 mil black vinyl
- High-tack removable pressure-sensitive adhesive (with initial repositionability) designed to adhere to smooth painted wallboards (non-vinyl) and a variety of low-surface energy plastics
- Printable via UV and solvent screen, UV inkjet, UV offset, and UV & solvent flexo
- Excellent layflat release liner properties for printing and converting
- Wipes clean with dry eraser or soft lint-free cloth
- Refresh with a damp (water) soft lint-free cloth periodically as needed

<u>Chalk Usage on WALLdeco 6787BK:</u> Soft chalks, such as pastels, should be used with this product to minimize permanent scratching. For best results, avoid the hard edges of any chalk, and do not apply excessive pressure when writing or drawing. We recommend printing white before colors for improved graphic "pop". Click to view <u>FLEXcon's WALLdeco™ Technical Guide and Application Instructions.</u>

For Inkjet Printing:

- Typical max. ink limit = 250%
- When storing printed graphics, sheeted, stacked or in roll-form, consider leaving an unprinted margin (about 1/4") to allow for potential shrinkage of the film before trimming

FLEXcon® WALLdeco™ Chalkboard 6787BK

PRODUCT DATA	VALUE		TEST METHOD
Physical Properties			
Thickness (Mils[microns])	Film Adhesive Liner	3.9 (99) +/- 10% 0.8 - 0.9 (20-23) +/- 0.1 (3) 6.9 (175) +/- 10%	ASTM D 3652 (Modified for use with non-tape products)
